Family Wellness Center

Operated by Premise Health

32 Chicago Ave. Second Floor, Groton, CT

(860) 629 8272

The EB Family Wellness Center is offering a personalized treatment plan for any EBAC members involved in all sports throughout the year.

EBAC members who have United Healthcare insurance are eligible for a consultation and treatment plan for sports injuries/orthopedic evaluations.

If you have an orthopedic injury (i.e. sprain or strain) during a game or event or if you have been injured and in the day(s) after are still experiencing pain and discomfort, you can call or come by the Wellness Center for an evaluation. One of the qualified providers (MD, PA, NP) will perform an evaluation and a treatment plan will be put in place if necessary.

Physical Therapy treatments are available on-site, located on the second floor.

Our expert and professional staff includes experienced Primary Care providers and a full-time Athletic Trainer/Physical Therapist. Members can make an appointment by calling (860) 629 8272 or by walking-in to see if there is availability to be seen right away.

When calling, be sure to mention that you are calling for a sports injury and you are a member of the EBAC.

Orthopedic Surgeon to call: Dan Zuchelli, M.D. (860) 889 7345
