Riders are asked to be comfortable with riding single track trails for 2-2.5 hours with stops. Late fall, winter, and early spring require lights to account for the earlier sunset. We recommend both a bar mounted light and a helmet mounted light for safety and visibility. RI locations also require that international orange be worn during hunting season. We typically ride 8 – 12 miles with opportunities to bail out early. Contact David Gudbrandsen (dgudbran@gdeb.com) to get on the email list for weekly ride location/time.
